David Greenberg 5977 Calle Almendra **Hereford, AZ 85615** We are 40 miles south of I10 about an hour from Tucson. Basic mechanical knowledge includes patching stuff up well enough to get to the next mechanic. My local guy is very good (can do a carb rebuild in 15 minutes) , but not too fast on the big jobs (engine rebuilding, etc takes weeks) I have a small welder, air tools, jacks and stands and can help with electrical and plumbing problems. I don't have much parking space available, due to a large number of projects going on. 520 378 9380 [landman11@mindspring.com](mailto:landman11@mindspring.com) [www.azlandman.com](http://www.azlandman.com)

Christopher Choffat 4322 N. 86th Place **Scottsdale, AZ 85251** I am located in South Scottsdale just off the 101 Freeway at East Indian School Rd, about four miles north of the 202 Freeway, on the eastern leg. The 101 is a valley-wide loop that connects to I-17 and I-10. I am also near Arizona 87 which is a popular mountain access highway. I am a GMC newbie since 2003, but have mechanical and electrical aptitude and

will help in any way that I can. I can offer a place to park, 110V, 20 A plug in (for now, 50 A later.) in my NON- HOA neighborhood, and help in finding local parts and service for your GMC. There is also an RV friendly Wal mart about a half mile north of me. There is a gas station with RV dump and Propane filling just off my freeway exit, and an RV friendly Casino just a few exits down. I travel for business from time to time, but the number is my cell phone, so if I'm not available, I'll help you find somebody who is

We live in a townhouse community (Goodale Landing) so we can't offer a place for repairs or parking but we could manage overnight parking in an emergency with no hookups of course. We will get fussed at but that's Okay. I have a pretty good selection of tools. I will help in any way I can but I am not an expert on these machines. We can provide hot coffee, cold beer, or a sympathetic ear. 706 724-6853 or 706 951-9632 or **rgray125@home.com**

Jerry and Sharon Work 24108 Redwood Highway **Kerby, OR** 97531 My wife and I recently purchased a 78 Royale to replace our four year full timing "rolling condo" diesel pusher. After the four years of full timing we purchased and are restoring the 1907 Masonic Temple building in historic Kerby, OR, about **26 miles SW of Grants Pass, OR, on US-199** The Redwood Highway. My studio and workshop is on the first floor of the building (I build fine furniture) and our living quarters are on the second floor. The Redwood Highway connects US-101 at Crescent City, CA, with the I-5 at Grants Pass, OR. Many consider this drive through the Redwood National Park and the Smith River canyon one of the most scenic in the NW. Our little near ghost town of Kerby is alive with artists and craftspeople. Unique wood work abounds. One of our neighbors is a major burl supplier and another builds rustic furniture for lodges and log homes across America so this is an interesting place for people interested in furniture making and wood art. The Oregon Caves National Monument is a short 30 minutes away.

We have parking space for at least one guest GMC and there are near by camp grounds for a larger group. While we do not have ideal working space, just a level gravel spot, there are nearby mechanical facilities to effect most repairs locally. We can lend moral support, hot coffee, a cold beer or two, limited tools and hopefully good company to help GMC'ers in need or who just want to stop by to say "hi".

Dave Wilson, 4046 FM 3277, **Livingston, Tx** 77351- on the shore of lovely Lake Livingston. I've had my Birchaven about 2 years and have done all of the usual "stuff" and some not so usual. I have a few broken tools, and some new ones (if I just knew where they were now !), a small shop, and parking for who know how many coaches, and can figure a way to provide most hookup, and a place to dump. There are at least 5 other GMC owners in the local area, if I can't help fix it, or don't know who can, one of the others probably can. Call or stop by, refrigerator has something in it. ## UTAH

Mark & Beth Elmer, 1836 Canary Way, **Eagle Mountain, Utah** 84043-4407. We are **Southwest of Salt Lake City** by about twenty miles. I have a good selection of hand tools, air tools, large air compressor, floor jack TW BEARING TOOL and etc. Not afraid to get my hand dirty. I also work for NAPA Auto Parts. So I have access to a large inventory of parts and know of many good repair shops in the area. We are anxious to meet all GMC'ers who pass by our way. Best to call ahead or email as we both still work full time and Beth sings in The Mormon Tabernacle Choir. We can make some space for you if you need to stop over for a day or two. No dump station, but we do have 120 volt electric and water available. And you can have a shower and catch up a load or two of laundry. Fred and Betty Wright 3221 Deer Park Dr. **Virginia Beach, VA** 23452 We are rapidly learning about places to go and get repairs. In addition we are new to motor homing having spent most of my life on the water and not doing much land traveling. That is changing and we are attending GMC international rallies as well as local ones. This winter we plan to go south and enjoy the 75 Avion and hope we can keep it in good shape. We know little about service availability in this area but are learning. However, we would love to talk to any GMC'ers that are in our area and would be glad to provide a cup of coffee or iced tea as that is preferred in the summer. 757 340 7855 H 757 572 5479 C
